

## Fruit & Veg Month 2022 Canteen Stickers

### Using the stickers

Place the stickers on your Fruit & Veg Month canteen specials to promote them. You can also use the stickers as a reward when students buy a fruit or vegetable containing menu item.

### Printing the stickers

The stickers are suitable for in-house printing, on a standard office printer.

#### *Sticker sheets*

Use 40mm round sticker labels, 24 per sheet. These size stickers are a standard label size and costs \$5.00 to \$10.00 per 100 stickers (not including postage).

#### *How to print*

Download the sticker sheet template from the Fruit & Veg Month 2022 resource page – [healthy-kids.com.au/teachers/fruit-veg-month/fruit-veg-month-2022-resources/](https://healthy-kids.com.au/teachers/fruit-veg-month/fruit-veg-month-2022-resources/)

Place the label sheets in the correct printer tray. In the printer settings, choose A4 size (full bleed) and colour. Do a test on one label sheet to ensure the orientation of the sheet and printer settings are correct.
